### **II. Goods Imported and Exported under Government Control According to Plans**

#### **A. Goods imported under Government Control According to Importing Plan**

The items listed in this section are now subject to non-automatic import licensing imposed in order to ration the foreign exchange reserves of Laos, consistent with the requirements of Article XVIII:B of the GATT 1994 and the Understanding on the Balance-of-Payments Provisions of the GATT 1994. Any person or company wishing to import such products must submit a plan each year, providing for the importation of specified quantities of the goods during the year, and imports are conditional on approval of this plan by the Laotian government.

Within one year of the date of entry into force of this agreement, the Lao PDR shall consider the list of items subject to such licensing, and the amounts permitted to be imported for each such item, with a view to phasing out any trade restrictions maintained for balance-of-payments purposes. In each periodic review of this agreement, the review shall include an overview of the balance-of-payments situation of Laos including the necessity for continued trade restrictions for balance-of-payments purposes. The Lao PDR will progressively relax any trade restrictions maintained for balance-of-payments purposes as conditions improve, maintaining such restrictions only to the extent necessary under Article XVIII:9 of the GATT; the Lao PDR shall eliminate such restrictions when conditions no longer justify maintaining them.
